

# REFUGE & RESTORATION

DECEMBER 2016

**Praise God**, we have been blessed with several sponsorship commitments. We currently have two little Gems fully sponsored (each at \$150/month for living expenses + \$75/month for private school). One additional Gem is partially sponsored (at \$150/month for living expenses).

Join us in believing in God's provision for monthly commitments to secure full time staff (\$800/month total).  
**\*This is currently our greatest need.\***

Join us in believing in God's provision for fully sponsoring our partially sponsored Gem (\$850/year for private school) and also our currently unsponsored Gem (\$150/month for living expenses + \$75/month for private school).

Join us in believing in God's provision for two security doors purchased and installed (\$500 total).

## DEAR FAMILY AND FRIENDS,

We are heartbroken to tell you that are still awaiting the arrival of our eagerly anticipated little Gems. All paperwork is in order and the government of Mexico has approved us, the rooms are prepared and the twinkling Christmas tree stands with a few presents waiting underneath.

Unfortunately, due to communication barriers, we recently discovered that there is currently no local task force that exists specifically to extricate human trafficking survivors. The government of Mexico *could* place children from the street with us, but we feel very strongly that the Lord wants us to focus on this very specific need. Thankfully, we are currently networking with the government of Mexico, trying to bring survivors in from another state. We feel that removing the survivors from their current location will give them, and our team, another level of protection and provide us with more opportunities for integrating them into our local community.

We've connected with a local group that is also fighting against this atrocity. This team has been raising awareness in the state and working towards developing a special forces team trained for the express purpose of identifying, locating, and rescuing those being trafficked. According to this team, there are currently no homes open prepared to receive and bring restoration to these children. The Treasure House is the only home even preparing to open!

You may have noticed some significant changes in our newsletter, and, we are happy to announce, that is because we have been blessed with a new addition to our team – a social media consultant. Our website is being transformed, our email address has changed, and we've got a Facebook page! For the protection of our Gems, and our team, we are taking steps to remove any information that would make the location of Treasure House and the identity of the survivors/team available to the public. **\*IMPORTANT\*** If you have knowledge of this information, please help us protect it by being cognizant of your references to Treasure House, its location, and staff members – thank you!

Wow. We've always known that we are pioneers, but this is truly ground breaking. The current situation is saddening, the task before us is daunting, but we are convicted and steadfastly dedicated to our heavenly assignment. We've had strong opposition from the enemy, but greater is He who is in us (1 John 4:4).

**-BLESSINGS**

Whether you feel led to commit to a yearly sponsorship, a monthly sponsorship, or just a one time donation, every little bit helps. We believe God blesses obedience and often multiplies our gifts. *Mark 6:41-42*

FIRE International is our parent ministry. Here's the donation link: [fire-international.org/donate.php](http://fire-international.org/donate.php)
